PROFESSIONAL SUMMARY

Aspiring **Software Developer** looking to contribute and grow within a reputable organization, aiming to enhance knowledge and further career growth. Proficient in **Java, Spring Boot, and related technologies,** with a strong background in building web applications. Dedicated to **staying updated** with the **latest industry trends** and technologies, continuously enhancing my skills.

SKILLS

- **Languages**   :   Java, JavaScript, TypeScript, HTML, CSS
- **Frameworks**   :   Spring Boot, Hibernate, React, Angular
- **Databases**   :   Oracle, MySQL, MongoDB
- **DevOps Tools**   :   Docker, Kubernetes, Jenkins, GitHub, Bitbucket, Maven, SonarQube, JUnit, Jira, Apache Kafka etc…
- **Cloud Platform** :   AWS (EC2, IAM, S3, Route53, Linux, Shell Scripting etc…)
- **Other**   :   REST API's, Design Patterns, Agile Development, Problem-Solving, Team Collaboration

EDUCATION

Zeal Institute of Business Administration, Computer Application & Research, Pune   *Aug 2022 - Jun 2024*
Master of Computer Application (Management)   *CGPA: 8.25/10*

MES's Abasaheb Garware College of Arts and Science, Pune   *Jun 2019 - Apr 2022*
Bachelor in Computer Application (Science)   *CGPA: 8.01/10*

WORK HISTORY

Web Development Intern   Jan 2024 - March 2024
Octanet Services Pvt Ltd,   Remote – Bhubaneshwar, Odisha

- Designed and developed dynamic and responsive webpages using **HTML, CSS, JavaScript, and Tailwind CSS.**
- Gained hands-on experience in front-end and back-end web development during a **Web Development Internship at Octanet Services Pvt Ltd,** working in a dynamic and fast-paced environment.

PROJECTS

Distributed Web Application for Insurance Eligibility System (2024): *Spring Boot, Microservices, MySQL, Angular* ⊙

- Developed **RESTful APIs** using Spring Boot and Hibernate for efficient data retrieval and manipulation.
- Implemented **front-end interfaces** using Angular, HTML, CSS, and TypeScript to improve user experience.
- Utilised DevOps practices to automate build, test, and deployment processes, **reducing release cycle time by 30%.**
- Overcame the challenges in **technology integration and data security**, improving application processing efficiency.

Web Application for Electronic Shop (2023): *HTML, CSS, JavaScript, Bootstrap, JDBC, Servlet, JSP, MySQL* ⊙

- **Developed a comprehensive e-commerce platform** enabling users to browse, filter, and search for products across various categories, add items to a cart, and complete purchases using a secure payment gateway.
- Integrated comprehensive administrative features for seamless product and order management; automated email notifications improved the user experience, resulting in a **20% boost in customer retention** and a **15% reduction in order errors.**

Memories Social Media Application with Authentication (2023): *React, Node, Express, MongoDB, JWT Authentication* ⊙

- **Created** a social media platform with **100% mobile responsiveness,** allowing users to register and manage their personal memories effortlessly.
- **Implemented** Google OAuth authentication, **reducing login friction by 40%** and improving user security.
- **Designed** an intuitive UI using React, leading to a **25% increase in user engagement**.
- **Built** a scalable backend with Node.js and Express, achieving **CRUD operations with <200ms API response time**.
- **Enhanced** platform security by **encrypting passwords (bcrypt) and implementing JWT-based authentication**.

EXTRA CURRICULAR ACTIVITIES

Research Paper published in International Journal of Novel Research and Development (IJNRD):

- A study on awareness about cyber-crime among college students | **LINK**
- A study towards customer perception on E-commerce | **LINK**

CERTIFICATIONS

- Infosys Springboard Certificate for Agile Scrum Training, Complete Git & GitHub.
- Atos Foundation certificate for Python Programming and Microsoft power bi data analyst.
